Enough already!!! It is ridiculous the amount of tax dollars being spent on this case, as well as the legal costs to Microsoft, which will eventually be borne by the consumer. Instead of the benefits from all the innovations we have experienced through the years at affordable prices, Microsoft has been forced to spend millions of dollars that could have been used for further innovations in addition to the time taken away from the business of new & better developments.

Stop this mindless litigation once & for all!! Reasonable settlements have been offered. What is wrong with our judiciary that they can't force a reasonable settlement. As usual, taxpayers & consumers will bear the brunt of all this in the end.
